To Whom it May Concern:

It has been our pleasure to have worked with Holger C. Christiansen & Partners over the past year and a half. The team of Holger Christiansen, Doug Hagen and Keith Meier conceptually planned and completed detail design and construction of the campus for the Colorado Springs branch of the Center for Creative Leadership (CCL). They brought to the project creative and innovative input in response to our unique interests and needs. In their final design they were able to capture the overall expansive ambiance and special functionality that CCL was looking for in an educational training facility.

With its unique footprint, external and internal aesthetics, and special functionality, the CCL Colorado Springs campus is a beautiful landmark in the community. We believe Holger C. Christiansen & Partners did an excellent job with this project and we look forward to working with them on future projects.

Sincerely,

Bruce E. Byington  
Manager of Administration  
Colorado Branch
