To whom it may concern:

The purpose of this letter is to give a general recommendation of the firm, Holger Christiansen & Partners, PC. The Lewis-Palmer School District 38, located in Monument, Colorado, has been working closely with these architects and planners since early 1991.

Holger Christiansen & Partners have been an exemplary group with whom to work. Through our association with these architects, the District has developed a master plan through the year 2000 and promoted and passed a successful 14 million dollar bond election by a two-to-one margin. As a result of this bond issue, the district has worked with Holger Christiansen & Partners to construct a new middle school; added a commons/cafeteria area to an existing elementary school; improved athletic areas at our high school; and conducted site work to prepare for construction of future additions for the crowded high school facilities.

I have found Holger Christiansen & Partners to be professional, honest, approachable, and continually supportive of the best interests of their client. Their creative approach to problems and sensitivity to limited district resources have augmented the beauty of our facilities, the reputation of the district, community, and proactive direction for future projects.

I personally feel fortunate to have worked with Holger Christiansen & Partners since 1991. There seem to be no problems for which they cannot find a solution, and individual attention and patience to detail is outstanding! Their concern for their client has made this a better school district in which to serve the educational and recreational needs of the district's children.

If you have questions concerning this recommendation, please contact me at your earliest convenience.

Sincerely,

Dallas H. Strawn, Ph.D.
Superintendent
